Digitising administration for international schools

SJI International High School opened its doors in 2007, and was followed in 2008 by SJI International Elementary School. Together, they form part of a group of seven Lasallian schools in Singapore with a history dating back to 1852.

The realisation of the vision of SJI International was a labour of love for a team of SJI Alumni, who, having benefitted so profoundly from their own education at Saint Joseph's Institution (SJI) – one of Singapore's oldest and most respected schools – then sought a way to offer Singaporean and expatriate children a similar life-changing experience.

Ms Leslie Parungao, Administrative Officer for Enrichment at SJI International, considers EdSmart to be "an innovative system that offers our school the flexibility to meet our clients'/parents' needs."

EdSmart was introduced into the school by Mr Lee Baker, Assistant Principal, to support the paperless programme of the school, mostly for school trips, expeditions and admissions purposes.

What makes SJI International special "is in the way that, although we receive no government funding, we are able to award full scholarship to students coming from overseas, as well as local students.

We're also able to support a few foundations like Baan Dada Children's Home in Thailand, UWS Koh Chreum School in Cambodia and Purple Community Foundation in Philippines, as well as provide weekly community service within Singapore by our students."

EdSmart is proud to be one piece of the puzzle that helps SJI International strive to reach its goals, and always be better.

“

As the digital world gets bigger, EdSmart helps our busy parents – especially those who travel frequently for business or for those international students who are boarding and whose parents are not living with them – to submit any requirements easily by just using their computer or their phones from wherever they may be.

”

MS LESLIE PARUNGAO
