

EdSmart + complispace

Risk Assessments you can trust

How the EdSmart + SafeTripBuilder integration works

SafeTripBuilder is a type of school form within EdSmart, so you can launch it just like any other EdSmart form, or add to a process module workflow as part of your end-to-end excursion management process.

The SafeTripBuilder offering is unique because it combines risk content, provider management and an intuitive risk management workflow to guide a teacher, step-by-step, through a series of drop-down menus that dynamically change based on the teacher's selections.

The system then automatically generates a risk profile, checklist, policies and risk assessment. All SafeTripBuilder functionality can be provided within EdSmart.

Features of EdSmart + SafeTripBuilder

- Saves time and frustration for parents and approvers by removing the guesswork from excursion risk management.
- Consistent, complete and correct excursion risk assessments for each individual excursion.
- Control the guided process through drop-down menus that dynamically change based on teachers' selections.
- Straightforward and simple to understand risk, profile, checklist, policies and risk assessment.

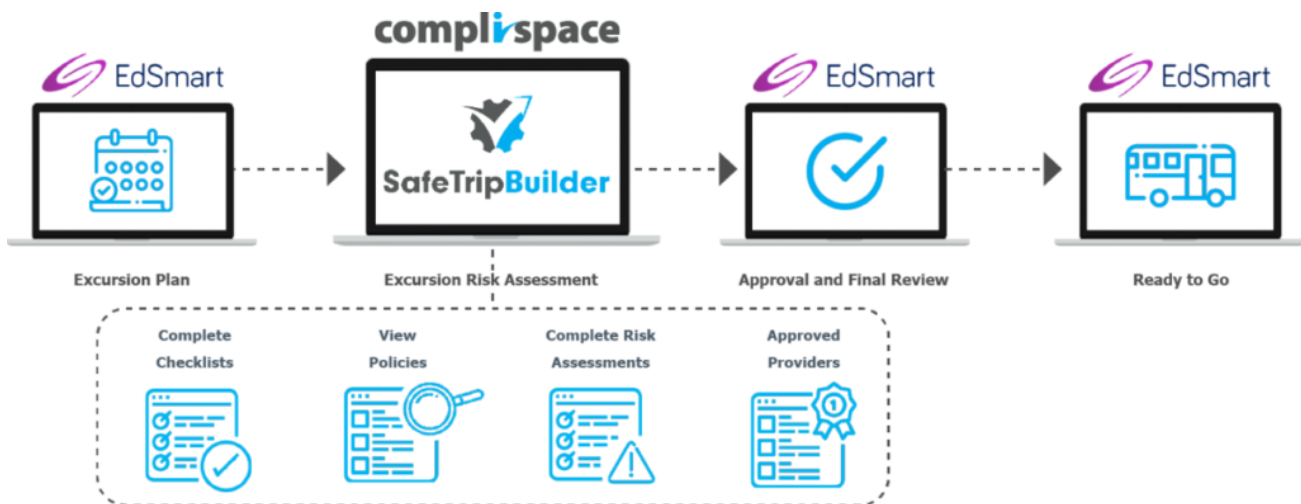

EdSmart + Complispace's SafeTripBuilder ensures that trip planning, approval workflows and the reviewing of risk assessments are time efficient to free up your day.

EdSmart + complispace

Peace of mind knowing you're ready to roll with all the checks & balances in place for your excursion

SafeTripBuilder by CompliSpace is an easy-to-use excursion risk management solution that integrates with EdSmart's excursion workflow. The two technologies combine to provide schools with exemplary risk management and compliance to ensure all the relevant legal tick boxes have been covered.

EdSmart is a cloud-based software-as-a-service platform. At its heart, it's a digital forms, workflow and best practice process automation solution, specifically designed for K12 schools. With EdSmart, schools minimise manual effort and deliver greater efficiency and faster outcomes.

CompliSpace simplifies governance, risk, compliance and policy management (GRC&P) and makes it work within organisations. Put simply, they help organisations know the rules, follow the rules and prove that they do.
